

2016-17 ANNUAL REPORT

A YEAR OF TRANSITION

# POWER OF HOPE

## Seasons of change

To some, life is a series of transitions; this is never truer than for the children of Maryvale. Though Maryvale represents a place of safety where they can learn to cope with their past and build new lives, often they must first face a transition that is sudden and frequently unsettling.

Thanks to our amazing staff and the work of so many others who give of their time and treasure, the children and families we serve don't have to make that journey alone.

**"When I hear something positive, no matter how big or how small, it reminds me of why I am here."**

~ Maryvale staff

transition

Every day, transitions occur at Maryvale. Children learn to cope with the trauma they have endured while others get ready for their first day of kindergarten. And parents learn how to build stronger families.

Established in 1856, Maryvale has grown and transitioned into an indispensable source of assistance for children and families. On a daily basis, 72 abused or neglected children have found a home with us while nearly 300 children attend our Early Education Centers, and annually, we work with hundreds of struggling families in the community.

Bringing lasting change and healing through Maryvale's mission is only achievable with the support of a committed community. We are grateful for our family of staff, volunteers, the Los Angeles Orphanage Guild, the Orphanage Guild Juniors and supporters like you who make the impossible possible.

*Steve Gunther, MSW, President and CEO*

# POWER IN NUMBERS

## The Trauma Informed Care Approach

All Maryvale programs are guided by the principles of Trauma Informed Care -- a proactive treatment model that recognizes the impact of trauma on youth and offers interventions that address both trauma-related symptoms and their underlying causes. Trauma Informed Care helps us understand, engage and empower vulnerable children and youth in their recovery, including those who have been sexually exploited and/or are struggling with chemical dependency.

trust

"When we first met, I asked Jaclyn how she would describe herself and she said 'unlovable.' And I said 'not on my watch.'"

~ Maryvale staff
